

# AFM Online Client Dashboard

Easy-to-navigate dashboard to quickly view valuable account information and make smarter property risk management decisions

## 1 Policies

Access and download in-force policies and endorsements.

## 2 Marketing Center

Learn more about AFM Online, as well as other products and services available through your partnership with AFM.

## 3 Map Center

View your location in an interactive environment in which a variety of natural hazard maps can be overlaid, visually depicting exposed locations. Live weather patterns and location-level details help you make sound risk management decisions.

## 4 In the Spotlight

Find the latest happenings of AFM and AFM Online.

## 5 Claims

View the status of a claim, report a loss or create a loss run report.

## 6 Resource Center

Access resources that outline property loss prevention standards, which can help protect business assets and lower the long-term cost of risk.

## 7 Risk Center

Access Risk Reports, RiskMark® details, recommendations and other risk improvement tools that help protect businesses from loss.

## 8 Natural Hazard Exposure by TIV Graph

Assess account exposure to natural hazards and view active recommendations by hazard type.

## 9 Risk Improvement Planning

Create a plan to improve your risk profile using predefined strategies or develop your own. See how the risk quality of your locations compares with other FM Global insured locations.

## 10 Loss Prevention Resources

Review and download resources on protecting locations from loss.
